One Great American Trait

paper editor good to get out from behind his desk and see how folks in other parts of America look, and think, and act.

'And that's what I've been doing these past weeks, touring the country from Michigan to Texas, California to Maine. It's a mighty encouraging experience. Not only because of the different points of view you run into-but because of the tolerance which reconciles those different points of view.

I mean the tolerance of a Penn-

sylvania farmer for the habita his city cousin; the tolerance folks who vote one way tows those who vote another; the tole ance of those who prefer sprin water towards those who enjoy moderate beverage like beer.

TIME NOW

From where I sit, it's that great American trait of tolerance-re spect for individual tastes and liberties-that makes this county strong. Let's never lose it!

The Dawson Home Demonstration Club was host to the Whites Chapel club on August 26 in the home of Mrs. S. H. Akers.

A song session welcomed the guests. Mrs. Howard Pitts opened the program with an interesting question session. Several stunts and games were enjoyed and refreshments were enjoyed and refreshments were served.

The meeting was closed with all present singing "Good Night, Ladies."

The Democrats—with President Truman doing the talking—and the Republicans—with Harold E. Stassen talking—began their cam-

ties in this section of Texas may be readied for any emergency. Mr. Wagner has conducted similar institutes in three Southern states, and has reported a splen-did response from the citizenship in each locality. New and im-proved methods for meeting disaster are being advocated by the na-tional organization in order that duplication and confusion may be ellminated when an emergency arises. These methods will be outlined by Mr. Wagner at the coming Disaster Institute which opens at 9:30 o'clock Friday morning, Mrs. Simpson stated.

Truck Overturns

trailer-truck loaded wth 15 mules struck the slippery shoulder just north of Corsicana on U. S. Highway 75, overturned and dumped its cargo into a farmer's pasture. The driver, E. A. Forrester of Jacksonville, was not injured, and only one mule was reported hurt. Highway Patrolmen Byron Currin and Henry Tucker investigated and assisted the Robert Owen Wreck Service in moving the damaged truck back onto the highway Thursday morning. The truck was en route to Fort Worth.

Truman's own Democrats helped pass it.

He promised labor the Republicans, if they win, will be real friends of labor.

Prosperity! We have it now, but will it last?

We'll have an "era of fear" if the Republicans win, said Mr. Truman. He took a dim view of continued prosperity if there is a Republican victory.

We'll keep prosperous if the Republicans win, said Mr. Stassen and he indicated that Mr. Truman is gloomy anyway and is trying to scare people.

Housing! Why don't we have more housing?

Blame the Republicans, said Mr. Truman.

Popular Mid-Heel Lace To Be Here For

All you, the voter, have to do is sit back, listen and try to figure who's right: Democrats or Republicans? Some job.

Things like high living costs, prosperity and labor laws are so complicated that even experts have trouble figuring what's what. Maybe a lot of voters already have their minds made up anyhow on the man they'll vote for. So they won't pay much attention to the arguments they read or hear on the radio.

They include the people who vote against a candidate because they don't like his eyeglasses or his mustache.

But the rest of the voters will just have to listen—if their minds are still open—and try to reach honest answers by themselves.

They have a tough job.

T. W. Wagner, general field representative, Mid-western area, American Red Cross, will be in Corsicana Friday to conduct a Disaster Institute at Red Cross executive headquarters, 110 East Collin street, according to announcement by Mrs. Claiborn Simpson, local city and county officials, industrial representatives from eleven counties. All Corsicanans who are interested in hearing discussions of disaster preparedness, are also urged to attend.

The aim of the institute is the preparation of a chapter disaster plan in order that cities and counties in this section of Texas may be readled for any emergency.

Remembering the Right Man

While Barnabas continued active in the Jerusalem church, Paul in the Jerusalem church, Paul went into retirement, back in his home city of Tarsus. He needed time to forge into shape in his great brain the significance of this new faith which he had accepted. These were doubtless the long, quiet months that made Paul the greatest theologian of the Christian religion. The most important activity to the public eye. Thinking is also working.

The Good News had flared forth, especially among the Greeks, in the great city of Antioch, on the River Orontes, near the sea. The

About 12 Russian Yak fighters roared over Berlin early in the day. Later there were two more groups, one of five planes and one of nine. They flew over the Zehlendorf district, an American residential section, stunting, diving and leaving vapor trails but remaining at altitudes of from 25,000 to 30,000 feet. This, an American spokesman said, was not a violation of four-power flight regulations, which apply only to flights of 10,000 feet or less.

Allied officers said nothing unusual, thus far, had occurred in the air lift corridors to interfere with the massive allied program to supply the blockaded city.

The U. S. spokesman, Lt. Col. B. E. Steadman of the U. S. military governments armed forces division, added:

"However, I can understand the Berliners' interest especially over the vapor trails. They know those well from the days of warfare bombing."

Danish naval authorities in Copenhagen reported that at least 50 Soviet planes violated Danish territory today in flights off Bornholm Island in the Baltic. They said one group flew low over a
